David Swanson is appearing in Walnut Creek during his national book tour. David will talk about first book *Daybreak: Undoing the Imperial Presidency and Forming a More Perfect Union* (Seven Stories Press; September 15, 2009), an assessment of how Bush/Cheney fundamentally altered the way our government works, inflated the powers of the executive, and deteriorated the Constitution and Bill of Rights. Only through the active efforts of citizens, Swanson argues, can we restore our rights, and expand our conception of political rights to meet new challenges. *Daybreak* offers a shocking and inspirational breakdown of all that we have lost, and all that we have to gain Throughout the ferment of the Bush-Cheney years, the calls for change that followed, and the new moment we are all

hoping to seize, David Swanson has stood at the forefront of citizen's movements for a more just America. Popular blogger, a leader of the antiwar and pro-impeachment movements, and a star progressive, Swanson is, as John Nichols calls him, "the true heir of the most radical—and thus the most American—of our Founders."
